

# World Manufacturing Production

## October 2022

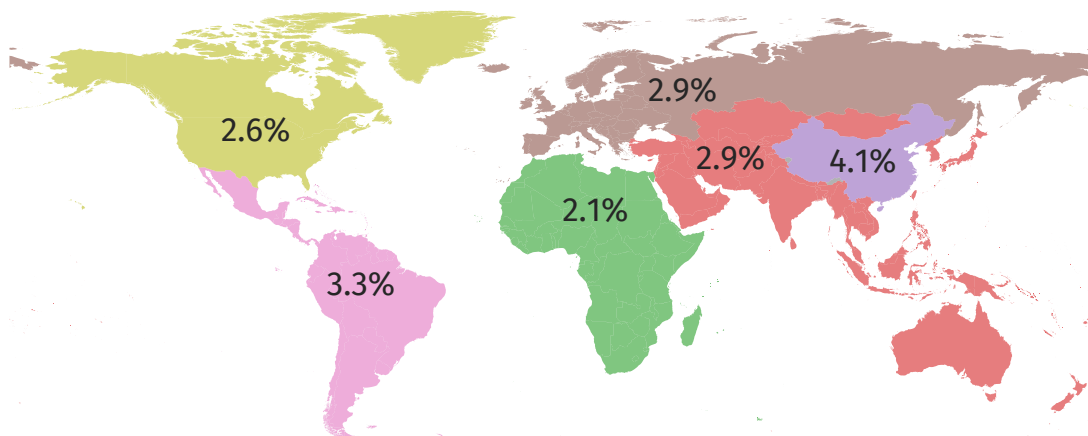

### Global manufacturing

**2.8%**  
year-over-year growth rate of global production, a modest deceleration compared with the previous month's results.

### Regional performance

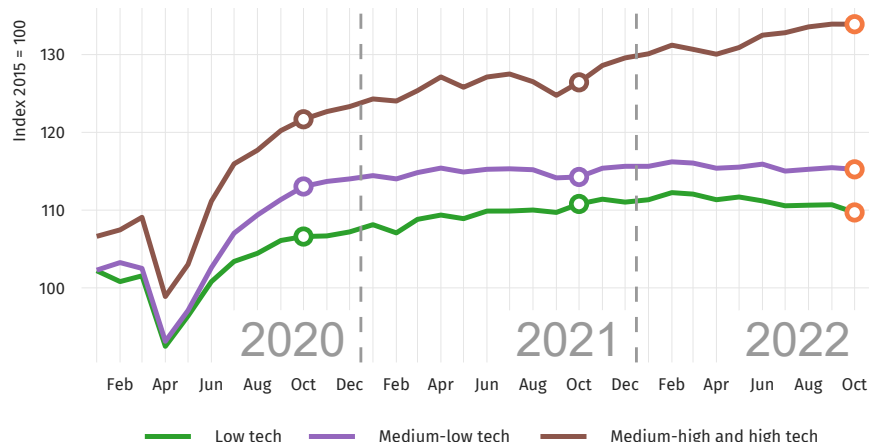

Year-over-year growth rate by region

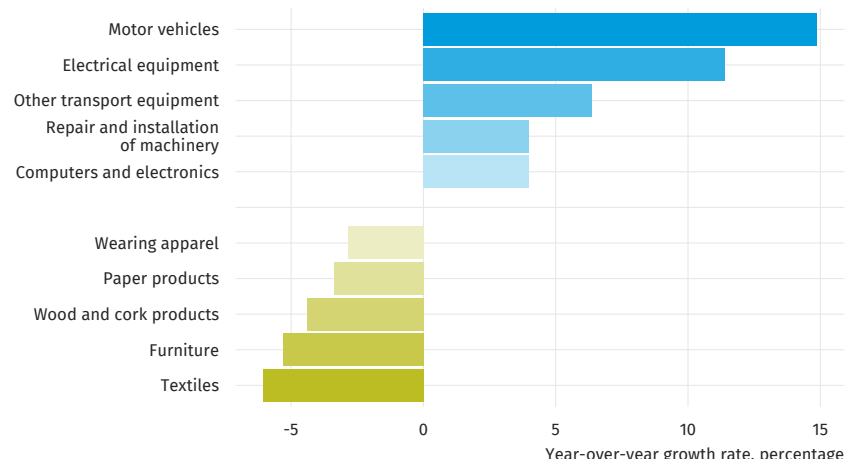

**China** achieved the best regional performance with a 4.1% expansion, followed by **Latin America and the Caribbean** with 3.3% growth.

### Sectoral trends

Global index of manufacturing production, industries by technology level

Manufacturing industries with the best and the worst global performance

Higher-technology industries continue to outperform other sectors.  
**Medium-high and high tech: 5.9%**  
 Medium-low tech: 0.9%  
 Low tech: -1.0%

Manufacturing of **motor vehicles** increased by nearly 15%, confirming the recovery from a period of negative growth that started even before the pandemic.

Note: This report is based on seasonally-adjusted series of official indices of industrial production (IIPs).
